

# SUN, EARTH, AND MOON MODEL

1. With your team, look at the materials you have available.
2. Make a model that shows Earth's orbit around the Sun and the moon's orbit around Earth.
3. Use the post-its to label important parts of your model.
4. Draw your model in your student notes. Be sure to include labels.
5. Briefly describe what your model shows. Include extra information to show what you know about the Sun-Earth-Moon system.
6. Write at least 2 limitations of this model.
